

How can I watch Crossflix on my TV?

There are four options to watch Crossflix on your TV:

Amazon Fire TV Devices. (ranging from approx. \$39-\$139 USD) – We support Amazon Fire TV products for connecting to your TV. Similar to Roku devices, Fire TV devices connect to your TV via an HDMI port and run independently of a computer. Amazon Fire TV devices are available at Amazon.com.

Basic Instructions for using an Amazon Fire TV device:

Step 1 – Purchase and connect an Amazon Fire TV device to one of your TV’s HDMI ports and register the device to your WiFi network.

Step 2 – Search for an install the Crossflix app on the Amazon Fire TV device. Once you search “CROSSFLIX,” it can be found in the Apps & Games section. Click Crossflix, Click Download. Click to open. Type in the Email address and password that is used to sign into Crossflix.com.

ROKU devices. (ranging from approx. \$29-\$129 USD) via the Crossflix app found in the Roku Channel Store.

Please Note that Roku 1, SE, HD, XD or XS are not supported. Similar to Fire TV these devices are independent of a computer. Roku devices connect to your TV via an HDMI port.

Basic Instructions for using a Roku device:

Step 1 – Purchase and connect a supported ROKU device to your TV. (See below for specific supported versions.) Register the device to your WiFi network.

Step 2 – Search for “CROSSFLIX” and download the app onto your ROKU device or log in at <https://channelstore.roku.com/> and search for Crossflix to add the channel. Register your email address and password for Crossflix.com on your Roku device. Open the Crossflix app on Roku and watch movies. For additional information on using ROKU to access Crossflix on your television, <https://www.roku.com/how-it-works>.

Apple TV. (Starting at approx. \$149 USD) The Crossflix app can be found in the App Store. Please Note that Gen 1, 2 or 3 are not supported since no third-party apps can be loaded to them (you can verify your version of Apple TV by going to this link: <https://support.apple.com/en-us/HT200008>). Similar to Fire TV and Roku, these devices are independent of a computer. Apple TV connects to your TV via an HDMI port.

Basic Instructions for using an Apple TV device:

Step 1 – Purchase and connect a supported Apple TV device to your TV. (See below for specific supported versions.) Register the device to your WiFi network.

Step 2 – Search the app store for “CROSSFLIX” and download the app onto your Apple TV device. Register your email address and password for Crossflix.com on your Apple TV device. Open the Crossflix app on your Apple TV and watch movies. For additional information on using Apple TV to access Crossflix on your television, visit support.apple.com/apple-tv.

Use an HDMI cable to connect your PC/Mac to your television. See <http://www.intel.com/content/www/us/en/tech-tips-and-tricks/dave-taylor-hdmi-article.html>.

NOTE: Smart TVs, X-Box, PlayStation and Wii are not currently supported.
